FERCHAU

Freelance Fact Sheet

The perfect fit – how we find technology specialists for your next project

Do you have challenging projects and find it difficult to cover all the necessary disciplines with your core team? A small consolation: most of our customers are in the same situation. A big consolation: we have numerous specialists for you in our freelancer pool – more than 41,000 to be exact. The FERCHAU wild card: with our technical sales department, you have a permanent partner on an equal footing who, in dialogue with you, can flexibly and precisely offer the right specialists for your project.

Your benefits at a glance:

Compliance with the system: we ensure that work and service contracts are **legally secure in the long-term** with checklists and permanent quality gates.

Managed service providing – bundling of freelancers and suppliers, e.g. collective invoices or purchase management.*

Dedication without local borders: the **locations** can be changed flexibly according to your needs.

Watertight work and service contracts: the independent auditing organisation DEKRA has examined and certified the **procedures and processes** at FERCHAU – as the first engineering and IT service provider in Germany.

Need a bit more? Both individual freelancers and **entire project teams** are available.

* Together with our partner, prime-ing.

The linchpin: our freelancer pool

Analysis

Analysis of needs based on individual requirements. Development of optimum approaches by our technical sales team on site at your branch.

Central freelancer pool

our service centres with more than

41,000

qualified freelancers.
With information on, among other things, references, qualifications, availability, mobility and rates.

Solution

Preparation of an individual offer, including a reference list and information about the qualifications of freelancers, as well as about rates and the next possible starting date – reliable, accurate and compliant.

On the safe side

You need to take a few precautions and implement processes in order to integrate freelancers smoothly and in a legally secure manner. But you don't have to do it yourself. All you have to say is: 'FERCHAU, take over!' and we will take care of:

Workplace and freelancer delimitation to the customer organisation, legally compliant interface communication, control tools for order management and allocation of work orders, software integration, ID cards, displays, door plates, e-mail addresses, checklists, procedure instructions and much more.
